Disengaged Employees Cost U.S. Businesses Billions of Dollars

According to the results of the Gallup Organization's 2009 employee engagement surveys reported at the end of that year, more than 25 million people were actively disengaged with their jobs and workplace at a cost to U.S. employers of \$416 billion in lost productivity.

The Key Question

***As a General how is your corporate
army armed against the crisis?***

Like this?

Or like this?

***Is it possible today,
to multiply the potential
of a company by 10?***

Yes! declares international consultant & author Dan Low. In a 15-minute Google+ meeting, Dan will demonstrate the psychological space needed to succeed in business today.

You are invited to answer the above 4 simple questions, and to discover to your great surprise, that 90% of companies are operating dangerously and well below their potential or capabilities. See CBS News article by Margaret Heffernan here:

http://www.cbsnews.com/8301-505125_162-57355776/study-most-managers-are-ineffective/

You will also discover, how to release the creative thinking power of your company, to obtain new ideas, solutions and options; reinvigorate your teams with powerful tools to make them stronger.

You can also ...

***Get our award-winning
