

# Maximize Your Potential Newsletter N°1

**Hi,**

**As may know, we are kickstarting a massive campaign to trigger ONE BILLION HAPPY FACES!**

**Currently the world is in pain and in serious trouble: economically, politically, and morally.**

**Stress, depression, anxiety are on the rise. So are suicides: 800,000 people every year reported WHO (World Health Organization).**

## **Why is this?**

**People the world over suffer from constant attacks from inside their subconscious minds! And have no psychological defense tools to fend for themselves or navigate the unknown.**

**From 2015 to 2019 we were invited by 5 major business school alumni associations led by ESCP Europe Alumni and Sciences Po to share our unique self-combat management tools.**

**These tools are simple, rapid and effective. They are immediately operational and solve most problems daily encountered by the individual.**

**The results were extraordinary and we received many testimonials from participants worldwide.**
