

WORLD EDUCATION

TRANSCRIPT

Every second millions get psychologically WHACKED by Big Bad Bob ... and lose time and energy - their most precious assets.

Don't be one of the victims! Discover how now! Enroll in this free course!!

My name is Dan Low, I've been an international consultant, author & corporate trainer for over 30 years.

Whenever you feel angry, sad, frustrated, vulnerable, fearful, disappointed or any other negative emotions or feelings ... it's a sign you are being whacked by BBB.

98% of people are beaten up daily. In varying degrees. Some seriously. If you've suffered this beating yourself but were unable to do anything about it, it's normal. Because you and millions of others may not be aware of BBB's existence.

3 years' intensive research in 4 major countries + more than 30 years observation have allowed me to show how you can stop BBB - with the snap of your fingers!

Today is a turning point in your life. A big one - as you will be able to free yourself, your loved ones, friends or colleagues from the tyranny of BBB.

Once you're able to stop BBB and start feeling good at will, you may want to share this skill with others. And help make this world a happier place for all.

You may thank me later but this won't be necessary. I'm already thrilled and happy to share one of the most powerful martial arts combat tools with you.

When you next meet with BBB you will just need to snap your fingers and feel calm and confident - whatever situation you're in.

You ready? Let's go ...

It's free to enroll now!

LECTURE 1

Hi! Thank you for enrolling in this course to gain time and energy.

This is Dan! I may be joined by Patti Sommier my Associate Director during this lecture.

Now, you're probably wondering ... who is BigBadBob and what does B.o.b stand for.

In this lecture you will discover who Bob really is and how to avoid getting whacked by him and lose your time and energy.

B.o.b stands for BOSS of Bosses - or Ultimate Reality - which is, what is! Bob is not what you would like it to be. Not what you would hope it to be. Or what you think it should be, but what is - the manifestation of a reality before your eyes right now!

Here are some examples: Bob can be simple things or more complex issues. A banana skin lying on the pavement is Bob. So is a car crashing into another car. Or a mosquito buzzing above your head that prevents you from sleeping. They are realities manifesting themselves before you.

Your client not turning up for the meeting is also Bob. The stocks taking a sudden plunge, or you spilling coffee on your white shirt before leaving for work.

Receiving negative news or an accident. It is what is. And since most people are

unaware, they fall victim by reacting to these realities.

Every object or thing that is happening around you are real. It's not imagined. If a man is standing before you this man is a reality and hence he is Bob.

A snail on the ground is Bob. If a woman accidentally steps on the snail and falls, this incident or accident is Bob because what she is experiencing is a reality.

To the woman the snail is Bob. To the snail the woman is Bob. She is a reality with feet that crush.

Bob is simply what is - an involuntary or voluntary act, or material objects before us.

A wall is Bob. If you try walking through it you'll meet with resistance. Yet many of us knock our heads against the wall when we are unable to get what we want.

If you wanted someone to answer your email but the person is not doing so, that's a reality, like the wall is a reality. And if you feel disappointed, angry or frustrated then you've been beaten by BigBadBob. You get the picture?

Here's a breaking news regarding Baby Bob !

Before we talk about how to handle Bob can you take a few minutes and recall how you reacted to Bob the last 24 hours - or last week? Talk to you again in the next lecture

...

LECTURE 2

Hi again, we hope you've had a chance to reflect on Bob.

Here are some of the questions we get asked: Is Bob just a Big Bad Bully? No, he's not. He's a Skidzophrenic and can be the most loving and supportive «being» ever to walk this Earth. That's the good side of Bob that we will be covering soon: BigGoodBob !

Someone asked: How can I escape BigBadBob? Well, no one can. It's something that's happening that is independant from us.

Nobody is safe as BigBadBob can surprise you at any moment! He follows you 24 hours a day, 7 days a week. And for the rest of your life here on Earth! That's what reality is about.

You are not even safe in your own home because Bob is not alone, his Gang of Bullies have already infiltrated your mind or psychological territory. These Bullies are deadly thoughts hidden in the darken alleys of your brain.

Have you ever worried about *What are they going to think? Or You're going to lose!* Well, they are two of BBB's Bullies occupying your subconscious mind.

How can I stop Bob from whacking me?

SCRAM! Get out of your subconscious into

the conscious here and now – just snap your fingers and TURN YOUR HEAD to the right!

Then focus on an object, or wall, and look at it intently like you're seeing it for the very first time in your life! Keep focusing on the chosen object (a chair, mug, book or pen lying around) for 30 seconds.

When you do this you instantly stop Bob's Bullies from whacking you in the head. In martial arts this conscious state is called «empty-mind». When two adversaries are facing each other they have to be in this state to eliminate all fear.

When in this state Bob's Bullies get thrown out too and you stop yourself from getting innerly whacked.

As long as you stay in this state you will experience total calm with no negative feelings or emotions.

Now, trillions of dollars are lost each year by companies worldwide because BBB keeps harassing and robbing their employees' time and energy.

A multinational did a financial audit and was horrified to discover that 90% of their employees got whacked by BBB, thus losing invaluable time and energy that affected their own productivity as well as their well-being – and the bottom line!

Check this out yourself and start sharing the concept with others.

You can teach your kids too. Get them to bip-

bop with Bob or turn their heads to the right to meet BigGoodBob whenever they are angry, frustrated, depressed or upset with something.

By turning the head it immediately triggers a psychological change of state as witness many of our students.

On the other end, who is BigGoodBob?

Big Good Bob

- **Well, BigGoodBob is the other side of reality ... Look at what U have. Just look at what you have and what U can do with what U have right now!**
- **U realize U still have time and energy! U can transform these assets into opportunities and new experiences. When you have time & energy you are RICH!**
- **Good Bob is a reality we often fail to see when we get whacked by Bad Bob.**

How and where do we meet GB?

GB is right here next to U!! We meet him every single moment of the day if we take our dark glasses off! We won't see clearly if we are blinded or in the dark.

Now, your friends and loved ones are

GB. Your computer is GB. So is the food U eat. They are part of YOUR reality when U experience them!

U have the ability to hear and learn. That's GB. Some people don't have this ability. U are sitting in front of a screen millions of others don't have.

If U have work, that's also GB. The list can be a mile long! But if U are stuck with BB U won't see a thing, or realize all the things U have. Just take out a sheet of paper and note all the things you have access to - and you'll feel good immediately!

Wanna bet a million bucks? If you have your 2 legs - what if you lost a leg? See what I mean?

We feel bad because we look at what we don't have or missed, instead of focusing on what we have - which is also a reality.

When we focus on what we have - and what we can do with what we have, it instantly puts us back on the right track, filling us up with energy and motivation again - even when things did not go the way we wanted.

Hence the importance of TURNING OUR HEADS TO THE RIGHT and emptying our mind, then looking at GB - before taking action if need be.

Of course we need to practice to build our reflex. To do so, schedule your

smart phone to ring 3 times a day. When it rings, turn your head to the right and focus on the here and now - intently - for 30 seconds, just like you landed on Earth for the first time!

Then think of what you have and what you can do with what you have. That is shining the torch on BigGoodBob.

This exercise will help you get out of your subconscious fast when BBB strikes.

The faster you get out the more time and energy you will gain. Time and energy will permit you to be productive and make more money.

We made a quizz for you, with some questions and answers, to recap this free course. You can download it now.

Take care!
